Camden

The Camden collection, driven by fashion forward design, stays relaxed with a crafted, artisan feel. Camden's solid mahogany hand carving conjures up the look of special collectables from far away, but its silhouette remains elegant with tranquil, contemporary lines. Finished in a deep espresso and accented with silvered handles, the Camden collection works beautifully in any bedroom setting.

Construction/Features: Cases and bed are accented with solid hand carved mahogany. Drawers are made with English dovetail joinery and equipped with under mounted, ball bearing slides. The solid wood drawers are fully finished inside and dust proofed. The bed is assembled with a user friendly, cam lock system.

Materials: Bed and cases are made of solid mahogany and mahogany veneers, with silvered handles.

Finish: Espresso

Made in: Indonesia
